

# Leo Koivunen

## Frontend Developer

### ABOUT ME

As a frontend developer, I am constantly learning new skills and sleeking into new technologies that solve some problems and I switch to better.

### EXPERIENCE

#### React • Frontend Developer

Iterator Oy

March 2022 - Intern - 2 months, Helsinki

I was involved in a project called ASTI, where I was working with systems and features. I learned React and how to work with legacy code base.
